ANR states that the above-referenced tariff sheets are being filed to implement recovery of approximately \$2.2 million of above-market costs that are associated with its obligations to Dakota Gasification Company ("Dakota"). California Independent System Operator Corporation; Notice of Filing

December 6, 2000.

Take notice that on December 1, 2000, the California Independent System Operator Corporation (the ISO) applied in the above-numbered docket for an order, under Section 211 of the Federal Power Act (FPA), 16 U.S.C. 824j, compelling San Diego Gas & Electric Company (SDG&E) to perform those transmission services that are necessary to fulfill the terms of the Transmission Control Agreement between SDG&E and the ISO, the Transmission Owners tariff, and the ISO Tariff. The ISO submits the application as agent for all users of SDG&E's transmission system eligible to apply under Section 211. SDG&E's concurrence is submitted with the application.

The application states that SDG&E transmission and distribution system have been financed, in part with certain "Local Furnishing Bonds," the interest on which is tax-exempt under Section 142 of the Internal Revenue Code. According to the application, Section 142 requires that SDG&E system be operated for the benefit of customers within its service territory, and operation of the system deemed by the Internal Revenue Service (the IRS) to be inconsistent with that requirement would, as a general rule, disqualify all of the currently outstanding Local Furnishing Bonds. The application further states, however, that, under Section 142(f), if disqualifying transmission services are provided pursuant to a Commission order issued under Section 211, only the bonds that financed the portion of the system used to provide such services, rather than all of the bonds that financed the local
